

Management at free kicks

The following procedures should benefit the control and management of free kicks:

- Once any disciplinary 1) _____ have been dealt with, ensure that the ball is positioned where the 2) _____ occurred as quickly as possible.
- If the attacking team has decided not to take a 3) ' _____ ' free kick, then clearly advise them (*by showing 4) _____ to the kicker*) that they must wait for a signal. If the kick is taken before the signal the free kick must be 5) _____ in all cases, **regardless of the 6) _____ of the premature kick**. The offending kicker will be given a yellow card.
- Manage and 7) _____ any defending players 8) _____ the ball.
- Manage the 'wall' by measuring the distance, not through the wall but to the 9) _____ and also simultaneously controlling the position of the ball. Any player who refuses to 10) _____ the required minimum distance should be given a yellow card.
- 11) _____ a correct position (monitoring the ball, wall and 12) _____).
- Signal that the free kick may be taken. If the defenders 13) _____ the wall while the kick is being taken, re-take the free kick if a goal is not scored and yellow card the offending player(s).
- Ensure that the ball is placed in 14) _____ position for the re-take and follow the same procedure.

In cases of misbehaviour of the players in the wall, the referees are advised that after 15) _____ an initial warning any further misbehaviour should be 16) _____ by disciplinary sanction i.e. yellow or red card(s) - another warning is not appropriate.
